OFFICE OF PETITIONS

It will be noted from the attached Fig. 1, which is a COD Colour Code Chart, that the only means of accurately indicating the level of the Chemical Oxygen Demand is by employing gradations in color as exhibited on the chart. Since there are forty-two (42) separate and distinct colors, based upon the chemical oxygen demand as measured in milligrams per liter, it is respectfully submitted there is no other satisfactory drawing or photographic method which would suffice to allow the colors, and hence the COD, to be distinguished.

A check in the amount of \$130.00 and three (3) sets of color drawings are enclosed herewith with this Petition.

The specification contains the following language as the first paragraph in that portion thereof which relates to the Brief Description of the Drawing:

"The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawing(s) will be provided by the Patent and Trademark Office upon request and payment of the necessary fee."

Applicants/Petitioners pray that this Petition be granted.

Respectfully submitted,
